Thinning year

- 2018
- 2020
- 2021
- 2022
- 2024

The district will maximise the area managed through thinning. FCS policies assumes that all productive crops will be thinned. The only exceptions will be where:

- Thinning is likely to significantly increase the risk of windblow;
- The crop is out of its thinning window;

A single thinning operation is likely to require an unacceptably large initial investment in relation to the potential benefits due to access or market considerations;

- Thinning is unlikely to improve poorly stocked or poor quality crops.

Scotland's National Forest Estate is responsibly managed to the UK Woodland Assurance Standard.
