Note Phase 1 Area in North Glen Croe is indicative only as this area will be the subject of a detailed site appraisal and specific operational plan which will also include any necessary provision of roads or stabilisation infrastructure.

Large scale felling coupes on the upper margin are in keeping with landscape scale and are appropriate to deal with the practical harvesting issues encountered on steep slopes & rocky terrain. Larger coupes also facilitate the restructuring of the upper margin to better reflect landform.

Smaller coupes and CCF on the lower slopes and along the roadside maximises the landscape and aesthetic benefits that this more intimate approach to forest management can bring.

Felling

- Phase 1: 2019 - 2023
- Phase 2: 2024 - 2028
- Phase 3: 2029 - 2033
- Phase 4: 2034 - 2038
- Phase 5: 2039 - 2043
- Phase 6: 2044 - 2048
- Phase 7: 2049 - 2053
- CCF Irregular Shelterwood
- CCF Uniform Shelterwood
- Conifer LTR
- Felled
- Mixed Broadleaved LTR
- Native Broadleaved LTR
- Open Ground

CCF: Continuous Cover Forestry
LTR: Long Term Retention
