Hi Corrina,

I just wanted to send you a brief e-mail to state that Developing Mountain Biking in Scotland (DMBinS) are fully supportive of Deeside Bike Collective and their Banchory MTB project CAT proposal.

Developing Mountain Biking in Scotland work with a number of groups to help develop and promote the sport. In particular as part of our Aberdeenshire strategy we are keen to support groups developing and/or improving our trail network as there is a clearly identified lack of purpose built MTB facilities in Aberdeenshire and the North East of Scotland. Deeside Bike Collective are in regular contact with DMBinS regarding their plans and current progress and we are keen to support them throughout the project. The proposals for Banchory put forward by the group will be beneficial in regard to improving the purpose built trail network locally providing a great opportunity for both current and future MTB riders as well as bringing additional health and well-being benefits and educational opportunities for the community.

Deeside Bike Collective are also an active and valued contributor to the Aberdeenshire Mountain Bike Development Cluster group who meet every 2 months to grow the sport and MTB industry in the region. This cluster group, comprised of members from varied backgrounds and organisations from across Aberdeenshire also fully support Deeside Bike Collectives plans. I have attached minutes from our September meeting at which 2 Deeside Bike Collective members were present.

If you have any further questions please do not hesitate to get in contact by reply or on the mobile number below.

Regards,

Will
