To: Richard Powell

Dear Richard,

Thank you for contacting us regarding the parking issue at the Fairy Pools which we are fully aware of.

The MacLeod Estate has been actively engaged in trying to find a viable solution for the serious car parking issues at Fairy Pools with all the other parties/agencies over the past few years. The MacLeod Estate's position has always been that the most sensible solution is to significantly enlarge capacity in the existing Forestry Commission owned car park and we hereby restate our full support for that particular solution. There is also an urgent need for the provision of public WC facilities at the Fairy Pools car park but we understand that the tenders received on that front to date have been too prohibitively costly for the Highland Council et al to adopt in this tough economic climate.

Kind regards

MacLeod Estate Team
